

## Chapter 21: Quantum Tomography and Experimental Measurement

This section is already in the book plan, but it has not been written fully yet. The book owner can press Generate section to write this part with the language model connected to TheoryTrace.

Section plan:

Shows how informationally complete POVMs support state tomography, process tomography, detector characterization, and experimental reconstruction of quantum systems.

### References

References will be added when this section is generated.

## Document information

### Chapter 21: Quantum Tomography and Experimental Measurement
